# SMALL SPACE LONG HANDLE TOOLS

One size does not fit all when it comes to gardening tasks. Many areas and tasks in the garden do not require the full power or length of a standard long handle tool but need more strength and durability than basic floral tools. Our small space long handle tools are 65% of the size of standard long handle tools and designed for maneuverability, comfort and performance.

- Shorter overall size improves control and maneuverability
- Slightly smaller and reshaped heads fit into smaller spaces better and gives the tool balance
- Powder-coated heads are riveted for durability and strength
- Ergonomic ControlGrip® provides comfort and multiple hand positions
